Profile:

Innovative and meticulous web developer who is experienced in building and maintaining interactive responsive web applications. Proficient in HTML, CSS, JS, plus, modern libraries and frameworks like ReactJS and TypeScript. Seeking position as a front-end web developer where my learned skills be further developed and utilized while learning new skills. I enjoy working collaboratively but can also run with projects on my own.

Work Experience:

- **Front-End Developer:**
Vahid Sport (Iran) | Sep 2022 – Present
Currently, I am working as a Front-End developer on a project for a company that import Automobile spare parts. This project aims to develop a customized web application including sales website, warehouse management and accounting system with the possibility of data analysis and providing appropriate suggestions to the store owner to improve store management such as suggestions related to profitable products and optimal purchase amount.
- **Front-End Developer and Software Engineer:**
Kwantis (Italy) | Jan 2020 – Aug 2022
As a part of software developer team, I worked with different frameworks and libraries like **React**, **Typescript**, **Jinja**, **Leaflet** and **Chart.js** in order to provide customers with responsive and interactive web applications. Moreover, I worked with different dashboard platforms as **Tableau**, **Power Bi**, and **QlikView** for creating dashboards for different customers. I Also had the chance to work with Python and experience more about Backend side of developing and gain a view of full stack developing.
- **Freelance Web Developer:**
- | **Dec 2015 – Dec 2019**
While I was studying for Master, contribute to several different projects to develop web applications as stat-up projects or short time projects which were focused on developing. Working on different project with different people was a great chance for learning adoption with different work situations and becoming familiar with different frameworks like **React** and **Typescript**.
- **Front-End Developer:**
Mozando Company, Tehran (Iran) | Jun 2015 – Nov 2015
Mozando was an online marketplace that followed the eBay business model and was active in Iran for more than a year.
I was responsible for rendering web pages with HTML5, CSS3, JavaScript and jQuery.
- **Web Designer:**
Municipalities organization, Tehran (Iran) | Oct 2013 – May 2015
I was responsible for Designing the managing the portal. It was a good experience about working with pure **HTML CSS JavaScript** and **jQuery**, improving my basic skills, and self-improved in time managing, knowledge sharing, and team working.
